Our mission is to inspire young people and expand their learning through the arts. We bring transformative arts education experiences to nearly 400,000 children and their teachers each year. YA's programs serve all children but our fundraising efforts support those in need. Half of YA's \$3 million budget is from fundraising and those funds serve children in schools that cannot afford arts programming.

Your **tax-deductible sponsorship** will help us provide the highest quality arts programming to more children, so they can experience arts education programs that help them grow into confident, passionate, and innovative citizens of tomorrow.
